TO : Executive Director, NPIC		FROM: Chief, Production Services Group	
ATTN:		LETTER NO.	

25X1 I talked with [ ] NSA Liaison officer, NPIC. He produced the following information:

(1) NSA did have plans to request a second line to NPIC but it was in their '72 budget. Recent shifts in monies have made available sufficient funds to finance this line at this time; consequently, the recently generated interest by NSA.

25X1 (2) [ ] verbal inquiries were to determine whether a second line was feasible. He says NSA is in the process of preparing for Adm. Gayler's

25X1

25X1 I gather that [ ] verbal inquiry was to determine whether NPIC had any objections to NSA asking for a second line before they took the letter in for Adm. Gayler's signature. If the informal inquiry came out affirmative, it was their plan to go forward with the formal request. So, I think what he is looking for is someone to say, "Yes, we have no objection to you asking for a second line; it is technically feasible to accomplish."
